FAILURE TO STOP & RENDER AID 03-249067

ATTENTION ALL OFFICERS AND CIVILIAN EMPLOYEES: The Special Traffic Investigations Section (STI) continues to investigate an STI Cold Case that occurred over a year ago. There is a good possibility this vehicle is still in the El Paso area and might be driven on the daily basis.

On Friday, 09/06/2003 at approximately 3:20 AM, a collision occurred at 8700 Gateway Boulevard East near 1200 Diesel & Margarita's Night Club. The PEDESTRIAN, Raul MACIAS 41 yoa, was killed as a result of injuries sustained in the collision events. The vehicle wanted in this case probably fled east bound on Gateway East and might have also fled south on one of the intersecting roads nearby.

SUBJECT VEHICLE: 1989 – 1992 Mazda MPV, maroon in color. Could possibly be a 4 wheel drive model, but not necessarily. Investigators determined the vehicle has the following damage: soft damage to the hood, broken right headlight bezel & housing, broken/missing trim directly under the right headlight, missing “MAZDA” emblem from left side of grill and to the grill. This is based on debris found at the scene. There should be some soft damage to the hood. Understand that parts could have been painted and or replaced by this time.
